D4.1: Rich fens

Feature group	Habitat types
Expert(s)	Anders Lyngstad
Date	2025-12-21

Alpine (ALP)

Occurrence status	Present regularly (PRE)	
Overall conclusion	🟡 **Unfavourable - inadequate (U1)**	↘️ **Deteriorating**
Range	🟢 Favourable (FV)	➡️ Stable
Area of habitat	🟡 Unfavourable - inadequate (U1)	↘️ Deteriorating
Structure and function	🟡 Unfavourable - inadequate (U1)	↘️ Deteriorating
Future prospects	🟡 Unfavourable - inadequate (U1)	

Atlantic (ATL)

Occurrence status	Present regularly (PRE)	
Overall conclusion	🔴 **Unfavourable - bad (U2)**	↘️ **Deteriorating**
Range	🟢 Favourable (FV)	➡️ Stable
Area of habitat	🔴 Unfavourable - bad (U2)	↘️ Deteriorating
Structure and function	🔴 Unfavourable - bad (U2)	↘️ Deteriorating
Future prospects	🔴 Unfavourable - bad (U2)	

Boreal (BOR)

Occurrence status	Present regularly (PRE)	
Overall conclusion	🔴 **Unfavourable - bad (U2)**	↘️ **Deteriorating**
Range	🟢 Favourable (FV)	➡️ Stable
Area of habitat	🔴 Unfavourable - bad (U2)	↘️ Deteriorating
Structure and function	🔴 Unfavourable - bad (U2)	↘️ Deteriorating
Future prospects	🔴 Unfavourable - bad (U2)	

Pressures

- PA22: Drainage for use as agricultural land [ALP, ATL, BOR]
- PB24: Drainage for forestry [ALP, ATL, BOR]
- PD01: Wind, wave and tidal power (including infrastructure) [ALP, ATL, BOR]
- PD02: Hydropower (dams, weirs, run-off-the-river and respective infrastructure) [ALP, ATL, BOR]
- PD06: Transmission of electricity and communications (cables) [ALP, ATL, BOR]
- PE01: Roads, paths, railroads and related infrastructure [ALP, ATL, BOR]

- PF01: Conversion from other land uses to built-up areas [ALP, ATL, BOR]
- PF03: Creation or development of sports, tourism and leisure infrastructure [ALP, ATL, BOR]
- PF13: Drainage, land reclamation and conversion of wetlands, marshes, bogs, etc. for built-up areas [ALP, ATL, BOR]
- PJ03: Changes in precipitation regimes due to climate change [ALP, ATL, BOR]

Conservation measures

- MA13: Manage agricultural drainage and water abstraction (incl. the restoration of drained or hydrologically altered habitats) [ALP, ATL, BOR]
- MB14: Manage drainage and water abstraction for forestry (inc. restoration of drained or hydrologically altered habitats) [ALP, ATL, BOR]
- MC03: Adapt/manage renewable energy installation, facilities and operation (excl. hydropower and abstraction activities) [ALP, ATL, BOR]
- MC04: Reduce impact of hydropower operation and infrastructure (incl. the restoration of freshwater habitats) [ALP, ATL, BOR]
- MC07: Habitat restoration/creation from resources, exploitation areas or areas damaged due to installation of renewable energy infrastructure [ALP, ATL, BOR]
- ME01: Reduce impact of transport operation and infrastructure [ALP, ATL, BOR]
- ME06: Habitat restoration of areas impacted by transport [ALP, ATL, BOR]
- MF01: Managing the impacts of converting land for construction and development of infrastructure [ALP, ATL, BOR]
- MF02: Habitat restoration of areas impacted by residential, commercial, industrial and recreational infrastructure, operations and activities [ALP, ATL, BOR]
- MF03: Reduce impact of outdoor sports, leisure and recreational activities (incl. restoration of habitats) [ALP, ATL, BOR]
- MJ01: Implement climate change mitigation measures [ALP, ATL, BOR]
